

B. F. Goldwater's Death.

From Monday's Daily.

Ben F. Goldwater died yesterday, (Sunday) at noon at the residence of his brother Henry Goldwater, of consumption. He came here about two years ago, suffering with the disease, apparently in the last stages, but was benefited by the climate and no doubt prolonged his life for several months by the change.

Deceased was 33 years old and was universally popular with all with whom he became acquainted. He was a son of Michael Goldwater, one of the pioneer merchants of Arizona, who retired from business a few years ago and who now resides with other members of the family in San Francisco. Brothers of the deceased residing in Arizona are, Morris, Henry and Barry Goldwater, prominent in mercantile circles both here and in Phoenix and who have the sincere sympathy of the entire community in their bereavement.

The Elks, of which deceased was an active member, held services over the remains this afternoon at 1 o'clock and they were shipped on the 2 o'clock train to San Francisco for interment, accompanied by his brother Morris.

This was the first funeral ever held in Prescott by the Elks, and they were very impressive and affecting. On account of the indisposition of A. J. Herndon, the exalted ruler, B. M. Ling officiated in this position. Members of the order, as well as many others present, were visibly affected during the service and there were few present who were not moved to tears.

Parker and Miller's Case.

From Monday's Daily.

When the case of Parker and Miller was called in court this morning their attorneys filed a motion for a change of venue, alleging as their grounds for such action that defendants could not receive a fair and impartial trial in this county. In support of this allegation their own affidavits were filed, also the affidavits of E. C. Welsh of this county, and the affidavits of E. S. Clark, district attorney of Coconino county and M. J. O'Malia of Denver. Other sojourners in the town, it is alleged, were asked to make affidavits to the same effect, but refused as they stated that they could not discover anything in the feeling of the community to justify such a sworn statement.

The district attorney asked for time until 2 o'clock this afternoon to furnish affidavits in rebuttal of the above, which was granted.

At the above hour this afternoon a further postponement was had in the case till 10 o'clock tomorrow.

Railroad Assessments.

The territorial board of equalization yesterday completed its labors and adjourned sine die. The matter of fixing the assessment of the various railroads provoked considerable discussion during the past few days but the matter was adjusted and the railroads are now assessed at the following valuations per mile:

Southern Pacific, \$6,570, an increase of \$100 per mile over last year's assessment. Arizona and Southern, \$8,830, an increase of \$50; Maricopa & Phoenix, \$4,500, an increase of \$50; Arizona & New Mexico, \$3,346, an increase of \$250. The valuation of \$5,000 per mile placed on the Atlantic & Pacific was allowed to stand. The Arizona Central, a small road in northern Arizona, 12 miles in length was assessed at \$500. The Pullman cars were valued at \$4,000 and tourist sleepers at \$1,200. There was considerable discussion about the matter of assessing the roads exempt from taxation but owing to the want of a legal opinion from the attorney general that matter was discreetly dropped.—Gazette.

The following is a copy of the bill introduced in the senate of the United States, by Mr. Hansbrough, to prevent inventors and others from being deceived and defrauded by alleged patent attorneys: Be it enacted by the senate and house of representatives of the United States of America in Congress assembled, that hereafter it shall be unlawful for any person or persons, firm or corporation, engaged in procuring patent claims to offer or award to their business correspondents or clients any gift, prize, or chance to win one, medal of honor, certificate of stock, or any other article or thing of real or supposed value intrinsic or otherwise; and any person or persons violating the provisions of this Act shall be deemed guilty of a misdemeanor, and on conviction thereof shall for each offense be punished by a fine of not less than five hundred dollars and not more than one thousand dollars, or by imprisonment at hard labor for not less than six months nor more than one year. Sec. 2. That all applications for patents which may hereafter be filed by or through an attorney, or any person representing himself as such, shall be accompanied by an affidavit of such attorney or person that he has not violated the provisions of the first section of this Act, and that false swearing thereto shall constitute perjury. Sec. 3. That in all cases where the government has heretofore or may hereafter receive fees for or on account of devices already patented in the United States the amounts thereof shall be promptly refunded to the respective payees. Sec. 4. That the commissioner of patents shall, as early as practicable, prescribe and promulgate rules for the admission and disbursement of attorneys practicing before the patent office, said rules to be subject to the approval of the secretary of the interior.

The enemy of the bicycle is again in evidence, as some individual who is sadly wanting in brains generously distributed several boxes of carpet tacks on the Central avenue bicycle path Wednesday night. As a result several punctured tires and a liberal amount of profanity was occasioned. It is mean to lead a girl walk three miles and lead a disabled bicycle.—Gazette.
